The Art of Gelato...

ICETEAM 1927 belongs to the ALI GROUP company, one of the leaders in gelato, soft, frozen desserts and pastry making machines industry. The company is the result of the joining forces of CATTABRIGA, COLDELITE, PROMAG and OTT FREEZER.

The wide range of products, unmatched in the industry, is something to be proud of and it is constantly renewed by new products, featuring both user-friendliness and innovation. Thanks to the diverse

cattabriga

Since 1927, a starring name of the industry, and a leading force in the innovation under the flag of undisputed excellence.

COLDELITE

Pasteuriser and batch freezer coming in a single body, looking ahead to the future, for both gelato and pastry applications.

 **PROMAG**

Strikes the balance between Italian Engineering and Design, and a competitive price positioning.

...since 1927

traditions coming from each brand, ICETEAM 1927 meets the demands of virtually all kind of customers in the foodservice industry, serves them with a listening attitude, and has the will to provide them with the right solution, either directly or through a well-structured sales network.

Italian Gelato

Soft Ice Cream

Pastry Gastronomy

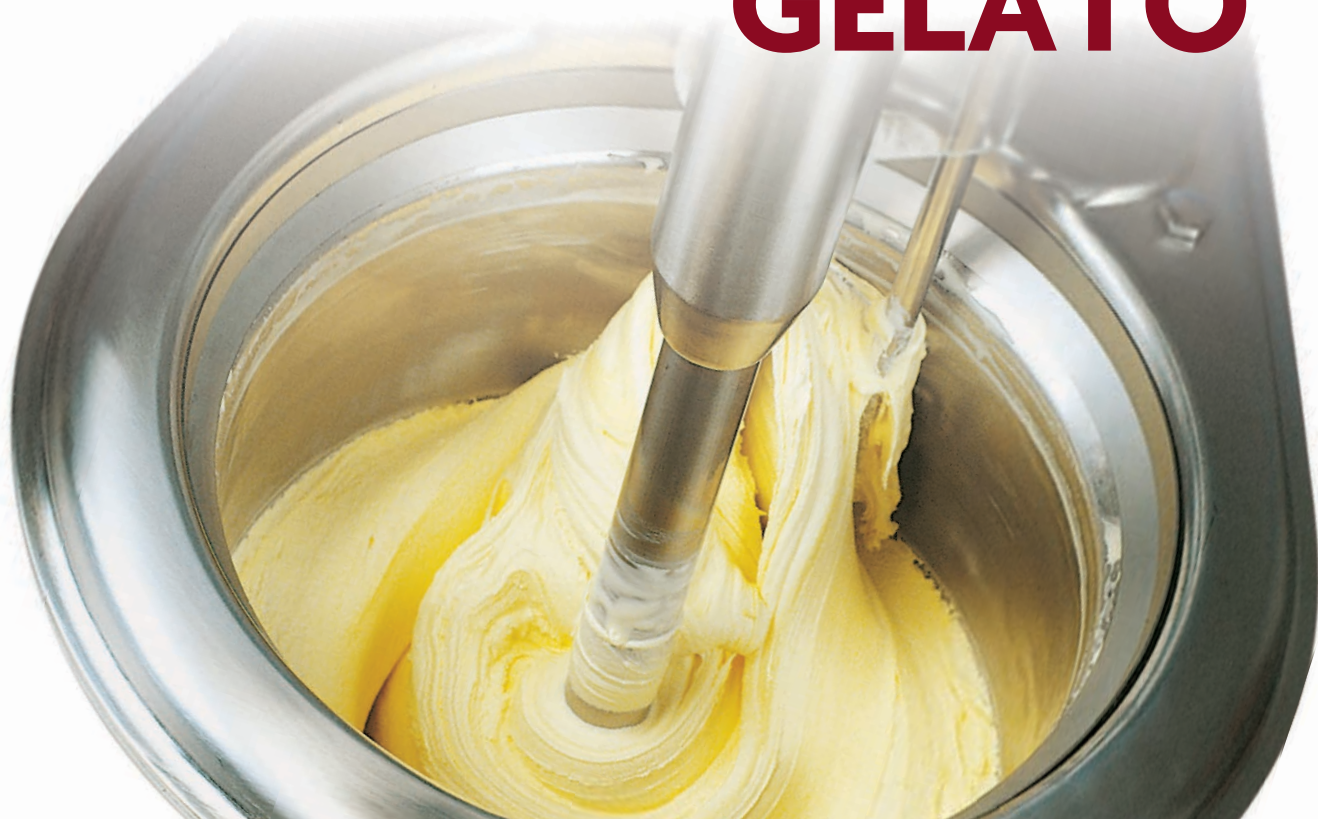

Since 1935, thanks to its unique vertical cylinder, multifunction technology, a deserved name and an innovator in the world's top names of pastry and hotel industry.

A range aimed at merging the American soft tradition with Italian passion for innovation, reaching high performance and reliability.

ITALIAN GELATO

cattabriga

COLD ELITE

 **PROMAG**

Unique Technologies

"Elite" beater

100% stainless steel, patented and extremely performing.

APM system

Emulsionates the mix for a longer dryness of gelato, when in the display cabinet.

Direct expansion cylinder

Patented, makes the gas impact over the several parts of the cylinder as homogeneous as possible.

Plate condenser

Improves the heat exchange and lowers electricity and water consumption.

Glycol-based freezing

Makes an incomparable smooth and creamy product.

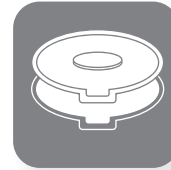

Dialog

Remote assistance and monitoring system.

Dialog ready

Compatible with Dialog system.

Double lid

Allows to add ingredients in the unit when at work, maintaining safety standards.

Double inverter

Varies the speed and adjusts the refrigerating power, with a remarkable saving of water and electricity.

Combined heating

The combination of coil and hot gas allows to perform a full pasteurization cycle in a reduced time.

SMART board

In-house software, with high free memory slots for remote update.

Extraction by stick

Shows the gelato making manual skills to everyone in the shop.

Optimized extraction

Improves the extraction process thanks to a special inner outline.

Inclusions

Allows to add solid ingredients when freezing.

Motor Beater Inverter

Varies the speed of the beater, improving the machine's flexibility with a remarkable saving.

Hybrid cooling

Allows to choose among water cooling, air cooling or hybrid cooling.

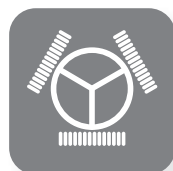

Insulated door

Utterly isolates the batch freezing process.

Visible production

Makes production a real show in its more classical "stir and stick" process.

Heating plates

Three independent plates, to be activated according to the quantity of mix treated.

Environmentally friendly heating

Heats without activating any coil, thus reducing consumptions of water and energy.

Independent exit boiler door

Allows to extract high-density products from combined units, directly from the boiler.

Automatic speed variation

The Brushless motor allows to set up to 10 speeds manually or automatically thanks to the detector of mix level.

SOFT ICE CREAM

BIB

Unique Technologies

3X Beater

Made by a few components and extremely performing in pushing the product towards the extraction point.

BAG-IN-BOX

Feeding system by a bag of mix connected into the unit.

REVERSE charge

Allows to effectively separate the operations area from the customers' self-service area.

Direct expansion cylinder

Patented, makes the gas impact over the several parts of the cylinder as homogeneous as possible.

Cleaning once a month

Certified procedure to clean the soft unit without disassembling most of the parts.

Automatic Fan Control

Fan speed varies according to the actual needs of the machine, reducing noise level.

Dialog

Remote assistance and monitoring system.

SMART board

In-house software, with high free memory slots for remote update.

Mixer in tank

Available as an option. Allows to continuously stir yogurt mixes, or very dense products.

Plate condenser

Improves the heat exchange and lowers electricity and water consumption.

Double and independent motor

Improves the production and allows to adjust freezing power independently on each side.

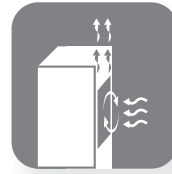

Plug & Play

It allows the machine to be connected to a single-phase network as it is already equipped with a plug.

Peristaltic pump

User-friendly and easy to maintain, while highly performing.

Chimney system

Cooling system with exit from the top, to save space in the shop.
